

# Robotic Loading Towers

*Use in conjunction with cylindrical ovens to raise and lower materials during heat treating, annealing and coating processes. Servo controls ensure smooth, precise motion.*

**Features include:**

- automatic feed moves materials in and out of ovens with the touch of a button
- quality construction provides years of trouble-free operation
- handles weights up to 15 lbs
- heights available up to 14 feet (custom sizes available upon request).
- no-maintenance roller head
- state of the art servo controls provide precise movement, easy operation, reliable function, and long life.
- optional hand-control unit (shown right) allows mobility during operation

\*custom sizes and configurations available
